

PYP 3	Unit 1	Unit 2	Unit 3	Unit 4	Unit 5	Unit 6
Timeline	Aug. 26-Oct. 11	Oct. 22-Nov. 29	Dec. 2, 2018-Jan. 24, 2019	Jan. 27, 2019-March 7	March 10-April 18	April 28-June 30
Transdisciplinary Theme	Who we are An inquiry into the nature of the self; beliefs and values; personal, physical, mental, social and spiritual health ; human relationships including families, friends, communities and cultures; rights and responsibilities; what it means to be Human.	How do we organise ourselves An inquiry into the interconnectedness of human-made systems and communities; the structure and function of organizations; societal decision-making ; economic activities and their impact on humankind and the environment.	How do we express ourselves An inquiry into the ways in which we discover and express ideas, feelings, nature, culture, beliefs and values; the ways in which we reflect on, extend and enjoy our creativity; our appreciation of the aesthetic.	Where we are in place and time An inquiry into orientation in place and time ; personal histories; homes and journeys; the discoveries, explorations and migrations of humankind; the relationships between and the interconnectedness of individuals and civilizations, from local and global perspectives.	Sharing the Planet An inquiry into rights and responsibilities in the struggle to share finite resources with other people and with other living things; communities and the relationships within and between them; access to equal opportunities; peace and conflict resolution.	How the world works An inquiry into the natural world and its laws; the interaction between the natural world (physical and biological) and human societies; how humans use their understanding of scientific principles; the impact of scientific and technological advances on society and on the environment.
Unit Title	Body Systems	Waste Management	Art Unit Cultures	Earth Structure	Water	Energy
Central Idea	Our body systems work together to make our body function.	The use and disposal of materials have an impact on the environment.	Cultures use many creative ways to communicate	Changes in the Earth's structure have an effect on people and the environment	Water is a finite resource that needs to be shared and protected	Storage and transformation of energy can affect communities and the environment
Lines of Inquiry & Concepts	Body Systems and their functions. (Function)	The waste cycle: biodegradable and non-biodegradable (Function)	Arts and its various interpretation around the globe (Perspective)	Changes in the Earth's structure over time (Change)	Sources of water (Form) Ways to distribute water (Function)	Definition of energy (Form)

	<p>Interdependence of Body Systems (Connection)</p> <p>Impact of lifestyle choices on our body. (Responsibility)</p>	<p>The impact on non-biodegradable waste on the environment. (Change)</p> <p>Environmentally efficient waste management: reduce, reuse, recycle. (Responsibility)</p>	<p>Appreciation and understanding of culture through its arts (Connection)</p>	<p>The effects on people and the environment (Connection)</p>	<p>Responsible water use (Responsibility)</p>	<p>Storage, transformation and usage of energy (Form and Function)</p> <p>Importance of renewable and sustainable energy (Responsibility)</p>
